Hi, I'm Susikumar Pitchaimuthu from Karur. My mother is a farmer, and my father passed away when I was 13. I hold a Diploma degree in medical science. I was curious about technology and wanted to pursue a career in it. In the past year, the academy helped me develop my skills in HTML, CSS, JS, Java, MYSQL, Servlet, and JSP. As part of my project work, I have created a website called Freshnest - a social media platform for like-minded individuals to connect and grow together. I aim to become a full-stack developer and an influential person in the field of science and technology. I enjoy farming and swimming in my leisure time. I am proficient in Tamil and English. I am a quick learner and I always follow my passion.

[Leetcode Profile](#)

Course	Institution	%	Year of completion
Grade 10	St.Anne's.High.School	94.5	2017
Grade 12	St. Joseph.Higher.Secondary.school, Trichy	78.5	2019
Diploma (Health Inspector)	Shri Indra Ganesan Institute of Medical Science, Trichy	67	2021

## Projects:

**Freshnest** is a revolutionary social media platform that aims to make your friend circle more extensive and more meaningful. With a user-friendly interface and advanced search algorithms, you can effortlessly connect with like-minded individuals and expand your social connections.

But freshnest goes beyond just connecting you with others. It offers a range of interactive features, including real-time chat and image sharing, to enhance your social experience. Join freshnest today and embark on a journey of social discovery, where friendships flourish and connections thrive.

# Certificates and Courses Completed

## 1. Hacker Rank

My ongoing commitment to learning is evident through the certificates I have earned in Java basics, CSS, SQL basics, Problem-solving, and JavaScript basics. I am excited to apply and further develop these skills in future projects.
